** DXCC: J5 ; Guinee Bissau ; Square: IK21 ; start 2013-02-11

Guinee Bissau (IK21dt) qrv on HF and 50 MHz

J52EME and J52HF will be again on air from february 11 to march 2, 2013. Some members of
Verona DX Team will return to Cumura to help the Mission with their work and install new devices.
In the spare time they will be on air on HF and 50 MHz Tropo and EME, if the condition will be good.
Not 144 and 432.

Activity from FG4KH FK96HF again

FG4KH will be on air by the middle of the next month for a small activity in EME and tropo from
Guadeloupe Island. The set up will be light this year with FT897, 200w, LNA and only H pol on
the 2 x 3WL DK7ZB. I will try to make some tropo QSO to south America and Cara?bean area.
I will be QRV also time to time on the HF bands from 80 to 10 meters
Cu soon from the French West Indies

** DXCC: TX ; Clipperton ; Square: DK50 ; start 2013-03-01

I am planning to have at least 1kw output and low loss feedline to a 6M8GJ with
manual elevation. There are very good windows with EU moonsets. PSE read my webpage
for more details and procedures. I will transmit in the first sequence JT65A when operating EME.
This is about the only way anyone from EU will ever work Clipperton on 6m, so please be ready!

** DXCC: 5W ; Samoa ; Square: AH36 ; start 2013-04-04

5W0M (AH36TN) on 144 MHz EME
A German team will activate Samoa from Le Lagoto on Savaii in the northern part of the island from 80m thru 6m. The good news is that very experienced moon bouncer and DXpeditioner Joe DL9MS joined the group and will take care of EME operations on 144 MHz. 5W0M will be QRV from 4 April to 18 April 2013 however, for Central Europe the EME window will open only around 8 April

UPDATE from Rene, Eeltje and Johan.
Good news! We have our single entry visa for Ghana! It took a whole day travelling to the Ghanese embassy and waiting, getting interviewed, filling in the right answers (in capitals) and showing the proof of our returnticket and yellow fever vaccination, but eventually we got a sticker in our passports. All on schedule now! This was not cheap. The three of us in total ?360 (450$).
Such a waste.... But with help of our sponsors the damage is less painful though donations still are more than welcome!

Thank for your votes for the best EME VHF DXpedition 2012. The two men DXpedition operated by PA3CEE Eltje and Ren&#65533; PE1L to Uganda (5X1EME) won. We're proud that all our African DXpeditions
since 2009 got the first place. It's clear that we do our best, never resting and persisting in getting all of you in the log and we want to promise you that our policy hasn't changed for 9G5EME. You know us by know. We won't give up! Thanks for your trust gents! We're proud!

For 144 MHz we do use the same setup as we used in Gambia and Uganda, 2 x 8 Xpol a WA2ODO preamp and modest power.
If all ok we will have a small 70cm AND 23 cm setup with us.

Our schedule:
144 MHz start april 12th till april 14th (condx are not that great but OK for the bigger stations)
1296 MHz april 19th
144 Mhz april 20th (ARI contest)
432 MHz april 21th
144 MHz april 22nd till april 27th (22-24 good condx for smaller stations)

Power shutdowns are common in Africa so schedule can change and don't wait to make a contact with us till the last day.

Johan, Eltje and Rene

After some DXpeditions in the past (last year 5X1EME) the Atleticoteam will go to Africa again. This time Rene PE1L, Eltje PA3CEE and Johan PE9DX will activate Ghana in west Africa on 144 MHz, this will be a new one for all of you. The licence 9G5EME is received and the flight and house is booked,

the locator will be IJ95gb on the beach in the town Ampenyi near the city of Cape Coast.
We want to be active at least during two whole weekends when there is good activity in combination with
good moon conditions. We try to start friday april 12th for the weekend and then start again friday 19th
for one week. (in between the condx are not good so we will do things what normal tourists do)
Internet possibility is unsure but we try to send at least once a day an update via MoonNet,
MMMonVHF and our mailinglist.

Frequency:
We always TX and RX 144.134 MHz
We use 1 minute periods and we will TX always first.

Setup:
2 x 8 Xpol yagi
400 watt amplifier and a low NF preamp (WA2ODO)

Welcome to Ghana moonbounce site! http://www.emelogger.com/ghana (donations more than welcome)
This is our fifth DXpedition to Africa. Africa came into our blood. We have to come back as often
as possible. We can't resist.... With this expedition we support projects via BEBO Bakery
http://www.bebobakery.com

Dont forget to vote at http://www.mmmonvhf.de/voting.php for expedition of the year 2012.

** DXCC: 3B9 ; Rodrigues Isl ; Square: MH10 ; start 2013-09-01

3B9EME will be qrv from Rodrigues Isl. (MH10qh) in september 2013.
After the success of the J52EME DXpedition by the Verona DX Team,
we are pleased to announce the activation of a new one for 2013.
We will be in 3B9, Rodrigues Island, for EME activity in 144 and 432 Mhz.
The period will be 1 to 9 September 2013. Flights and hotel are already booked.
We await the granting of the call 3B9EME, with the aid of the contacts of Rene PE1L,
which is, along with Atletico Team, our example for DXpedition activity.
Soon more news about equipment, antennas and QRG.
